

## Modular manifolds for 3/4-16 UNF cartridges

<p><b>Two way</b></p> <p><b>Circuit example</b></p> <p>Weight: 0,26 kg          Fixing system: 4xM6 tie-rods steel class 8.8 or above</p>	<p><b>Mounting example</b></p> <p><b>Spare part code</b></p> <p><b>E60403030</b></p> <p>Note: code does not include the MSV or MDV solenoid valve.</p> <p>Recommended tightening torque for M6 bolts: 8 Nm</p>
<p><b>Three way</b></p> <p><b>Circuit example</b></p> <p>Weight: 0,32 kg          Fixing system: 4xM6 tie-rods steel class 8.8 or above</p>	<p><b>Mounting example</b></p> <p><b>Spare part code</b></p> <p><b>E60403031</b></p> <p>Note: code does not include the MSV3V solenoid valve.</p> <p>Recommended tightening torque for M6 bolts: 8 Nm</p>
<p>Note: 3/4-16 UNF manifolds can be stacked one upon the other but cannot be used with cetop 3 modular manifolds since the tie rods bolt pattern is different. The three way block is not compatible with square vertical tanks.</p>
