

CE Made in Italy

CATALOGUE CABLE REEL and
Air-Water HOSE REEL

No. E15/AE

HELP THE NATURE

Packaging contains, depending on the articles, one or more of the following materials; they must be recycled in accordance with current regulations in the country of use.

cardboard • polyethylene sack • polystyrene • paper • wood • nails
• plastic strap • cellophane • clips • gummed paper

OUR STRENGTHS

The widest range of cable reels and hose reels designed to meet all the needs of our clients, even the most specific.

The quality, reliability and design that have always distinguished the Ecodora brand in the global market.

The research and development as a flagship of our company to always offer cutting-edge solutions.

A technical service before and after sales to recommend the most suitable product according to the customer's needs as well as to provide support to the end users.

OUR AIMS

To develop a long lasting cooperation with our customers by listening to their needs and their expectations.

To meet every user's need by offering only high quality products.

Cable reel presentation

All ECODORA cable reels rewind automatically and are equipped with a spring tested for tens of thousands of cycles which ensure a constant force. They are sturdy, compact, easy to position and removable. They allow managing with extreme ease and safety electrical cables of various sizes and cross sections ensuring a tidy and safe work environment.

All models are equipped with:

- ▶ Rewinding spring.
- ▶ Cable stop rack work.
- ▶ Protective shell in shockproof material.
- ▶ Cable guide with rollers.
- ▶ Fixing bracket.
- ▶ System for the manual reset of electrical power (to prevent damage from eventual overloads) with rewinded cable.
- ▶ Inlet cable for connection to the mains.

Accessories

Each model of ECODORA cable reel is customizable with the following accessories: Fixing bracket with "bayonet" coupler, protection cap, rewinding' clutch.

ADVANTAGES

- ▶ Electric collector designed for better performances also with high currents.
- ▶ Thermal protector against overheating of the rewinded cable mounted in all the models.
- ▶ IP44 protection degree provided for all the electrical parts.
- ▶ Spring tested for more than 10 working years with the possibility to easily adjust the rewinding force.
- ▶ Cable guide with rollers equipped with 4 rollers in each model designed to save the work life of the cable.
- ▶ Different options for different needs: rewinding clutch, bayonet bracket and protection cap.

CABLE REEL

Technical characteristics

- 1 SPRING**

Rewinding spring totally protected from the external environment. The spring is subjected to a durability test of 20000 cycles (each cycle corresponds to the complete unwinding and rewinding of the cable) thus simulating an average life of over 10 years. Possibility to intervene to adjust the spring force increasing or decreasing the preload.
- 2 REWINDING CLUTCH**

Optional, devoid of complex and potentially wearing kinematic motions, allows the rewinding of the drum at a safe speed.
- 3 STOPPING RACK**

It has an increased width and reinforcement ribs ensuring greater durability and sturdiness. It offers the possibility to block the cable every 0.5 m. allowing the unwinding of the desired length.
- 4 PAWL**

Easy to remove, of increased thickness with reinforcing ribs ensuring high stress resistance and durability.
- 5 STRUCTURE**

Strong and compact made in shockproof material of high mechanical resistance designed to withstand over time.
- 6 CABLE GUIDE WITH ROLLERS**

Sturdy and resistant with reinforced steel interior. Wide width which allows guiding the cable properly for correct rewind. Equipped with 4 rollers, 2 arranged horizontally (above and below) and 2 arranged vertically (left and right) that reduce cable wear.
- 7 ELECTRIC COLLECTOR**

Replaceable in one single piece, it has sliding contacts each provided with 3 sliding lines to reduce the electrical resistance and the heating during operation. Equipped with double earth contact.
- 8 THERMAL PROTECTOR**

Safety system against overheating of the rewinded cable.
- 9 SIDE CLUTCH**

The bracket is equipped with a special clutch which controls the rotation speed on the right and on the left of the cable reel.
- 10 ADJUSTABLE BRACKET**

Adjustable up to 90 ° per side, constructed with sturdy structure, with fixing slotted holes that facilitate wall mounting.
- 11 BAYONET BRACKET**

A bracket with bayonet type quick coupling is available on request: it allows an easier movement of the cable reeler in the various workstations.
- 12 PROTECTION CAP**

In NBR synthetic rubber, it protects the cable reel from accidental entrance of foreign bodies through the cable guide.

USE OF ADJUSTABLE BRACKET

POSITION 1

The adjustable bracket of the cable reel may assume various positions:

The **position 1** is particularly suitable for "single" installation on the wall or ceiling. This position allows the rotation of the cable reel around the central axis supported by the bracket, allowing maximum flexibility to the operator in the use of the cable in all directions.

POSITION 2

The **position 2** is suitable for installation of the cable reel "in series" (ceiling wall / floor or bench) because the rotation is blocked by the bracket that creates an interlocking with the guards of the cable reel.

POSITION 3

The **position 3** is suitable for specific installation schemes, that is when the pulling and exit direction of the cable is parallel to the wall where the cable reel is installed.

In order to pass from an installation position to another it is necessary to remove the bracket.

ACCESSORIES

REWINDING CLUTCH

Cable reels Series 280 and Series 290 can be equipped with a brake acting while rewinding the cable. This accessory limits the maximum rotation speed making secure even accidental and uncontrolled rewinding. The version with the clutch, is distinguished from the

“SPEED CONTROL” plate
 **TO BE REQUESTED WITH THE ORDER**

PROTECTION CAP

P/N **0E728115**

The **protection cap** of the cable guide, made of flexible black rubber, prevents accidental entry of foreign bodies and ensures to the cable reeler the IP 45 protection degree.

On request it can be mounted on the cable reel you want to purchase using the appropriate customized code, see the following pages.

BAYONET BRACKET

P/N **260/03**

A bracket with bayonet type quick coupling is available on request: (provided with wall bracket P/N 260/01), it allows an easier movement of the cable reel in the various workstations.

P/N **260/01**

Wall bracket, to be bought separately in case you want to create multiple points for fitting the cable reel provided with bayonet bracket.

To prevent removal or theft of the cable reel it is possible to secure it with a bolt or a lock.

ELECTRICAL CABLES

The denomination “electrical cable” indicates a conductor uniformly insulated or a set of insulated conductors, each from the others and towards the outside, combined into a single complex complete with protection covering.

THE CABLE IS MADE OF SEVERAL PARTS:

- ▶ The metallic part for conducting the current consists of a single wire or several stranded wires and their conductor.
- ▶ A layer of insulating material surrounds the conductor.
- ▶ The set of the conductor and its isolation constitutes the cable core; each cable may have more cores.
- ▶ The sheath has a protective function of the cable cores. The sheath in general is always in insulating material.

TECHNICAL TABLE READING GUIDE

NUMBER OF CONDUCTORS	Number of conductors uniformly insulated that make up the cross section of the electrical cable.
CONDUCTOR'S CROSS SECTION	Area (in mm ²) of the cross section of each conductor.
TYPE OF INSULATING MATERIAL	The type of material (e.g. PVC, natural rubber) acts as a protective covering to the conductor with mechanical or chemical protection function.

The following guidelines have been extracted from the Standard CEI 20-27

EXAMPLE OF POWER CABLE DESIGNATION

Number of conductors and conductor cross section (in mm²)

2 x 1 2 Conductors cable, cross section 1 mm²

- 3G x 1** 3 Conductors, cross section 1 mm² each, one of them with yellow-green insulation
- 4G x 1** 4 Conductors, cross section 1 mm² each, one of them with yellow-green insulation
- 5G x 1** 5 Conductors, cross section 1 mm² each, one of them with yellow-green insulation

Reference Standards

- H** Cable conforming to Harmonized standards CENELEC (HD 22.4 S2)
- A** Cable of national type approved and listed in the supplements to the Harmonized standards CENELEC
- xx - N** Other type of national cable

Voltage rating

- 03** Rated insulation voltage U₀/U = 300/300V
- 05** Rated insulation voltage U₀/U = 300/500V
- 07** Rated insulation voltage U₀/U = 450/750V
- 1** Rated insulation voltage U₀/U = 0,6/1KV

Insulation material

- B** Ethylene propylene rubber
- B3** Butyl rubber
- J** Braided fiberglass
- M** Mineral
- N** Polychloroprene (or equivalent material)
- R** Natural rubber or styrene-butadiene rubber
- S** Silicone rubber
- V** Polyvinyl chloride (PVC) commonly used
- X** Cross-linked polyethylene

Non-metallic sheath

- B** Ethylene propylene rubber
- B3** Butyl rubber
- J** Braided fiberglass
- M** Mineral
- N** Polychloroprene (or equivalent material)
- R** Natural rubber or styrene-butadiene rubber
- S** Silicon rubber
- V** Polyvinyl chloride (PVC) commonly used
- X** Cross-linked polyethylene

Conductor form

- F** Flexible conductor of a flexible cable for mobile service
- H** Highly flexible conductor of a flexible cable for mobile service
- K** Flexible conductor of a cable for fixed installation
- R** Rigid conductor, round, stringed
- S** Rigid conductor, sectorial, stringed
- U** Rigid conductor, round, single-wire

Examples of application sectors

CONSTRUCTION SITE

ECODORA has produced a wide range of industrial cable reels that can meet the most complex and demanding requests for use fields such as industry, agriculture, petrochemical, mining, aeronautics, shipbuilding, fire departments, automotive, construction, etc.

How to customize the cable reel

All cable reel codes shown on the table on the opposite page are not provided with clutch, protection cover and bayonet bracket (see accessories description on page 11). To equip the cable reel with one or more of the above-mentioned accessories you need to modify the code as described in the table below.

⚠ All other technical characteristics are not subject to customization

Example of standard code as indicated in the table on page 14

OE728 **A** **0** / **A** **2** **1** **17** **1**

		0	1	2	3	4	5	6	7
REWINDING CLUTCH		NO	YES	NO	NO	YES	YES	NO	YES
PROTECTION CAP		NO	NO	YES	NO	YES	NO	YES	YES
BAYONET BRACKET		NO	NO	NO	YES	NO	YES	YES	YES

Customizing the cable reel: for example, if you are interested to the cable reel **OE728A0/A21171** but equipped with clutch and protection cap you will have to put number 4 instead of 0 so that the final code of the cable reel will be **OE728A4/A21171**

The version equipped with a clutch that allows rewinding the cable at a controlled rate, is characterized by the plate

“SPEED CONTROL”
TO BE REQUESTED WITH THE ORDER

P/N OE728115

Protection cap, made of oil resistant rubber is useful against the accidental entry of water or foreign objects inside the cable reel.

P/N 260/03

Bayonet Bracket, it allows an easier movement of the cable reel in the various workstations For the use of the adjustable bracket see page 11.

How to customize the cable reel

All cable reel codes shown on the table on the opposite page are not provided with clutch, protection cover and bayonet bracket (see accessories description on page 11). To equip the cable reel with one or more of the above-mentioned accessories you need to modify the code as described in the table below.

⚠ All other technical characteristics are not subject to customization

Example of standard code as indicated in the table on page 22

OE728	A	0	/	C	2	1	14	5
--------------	----------	----------	---	----------	----------	----------	-----------	----------

		0	1	2	3	4	5	6	7
REWINDING CLUTCH		NO	YES	NO	NO	YES	YES	NO	YES
PROTECTION CAP		NO	NO	YES	NO	YES	NO	YES	YES
BAYONET BRACKET		NO	NO	NO	YES	NO	YES	YES	YES

Customizing the cable reel: for example, if you are interested to the cable reel **OE728F0/C21144** but equipped with clutch and protection cap you will have to put number 4 instead of 0 so that the final code of the cable reel will be **OE728F4/C21144**

The version equipped with a clutch that allows rewinding the cable at a controlled rate, is characterized by the plate

LAMPS

Fluorescent lamp
Series F230 - F12 - F24

Led lamp
Series L1224

ECODORA, portable lamps are strong and ideal for use in many fields of application. The adjustable hook and magnetic support allow their correct positioning in any situation. Depending on the model, they emit yellow or white light without generating heat and guarantee a large area of uniform illumination that ensures a large visual field.

ADVANTAGES

- ▶ Longer service life than a classic incandescent light bulb.
- ▶ Increased light output.
- ▶ Emits light at 5000° K, comparable with the sun light (led version).
- ▶ Light diffusor to make uniform the led's beam.
- ▶ Lower heating.
- ▶ Lower energy consumption.
- ▶ Easy positioning thanks to the swivelling hook and the magnetic support.
- ▶ Switch protected from accidental actuation.
- ▶ Bicomponent non-slip handgrip.

The model with fluorescent lamp is supplied with light bulb.

Fluorescent portable lamp that fits only energy saving light bulbs E27 max 11W.

LAMPS

Technical characteristics

1 ADJUSTABLE HOOK
360° rotating, with locking loop device, allows to securely hook the lamp to various types of supports. The innovative closed loop system ensures a safe hooking also on moving equipment.

2 TRANSPARENT PROTECTION COVER
In high resistance polymer, it protects the lamp from accidental shocks and against entry of dust, dirt and liquids. Replaceable screen.

3 FLUORESCENT LIGHT BULB 11W
For voltages from 12 V DC - 24 V DC - 230 V AC-50 Hz. Series F280 - F12 - F24

4 LED HOLDER UNIT
For voltages from 12 V AC/DC a 24 V AC/DC. It includes 12 white LEDs (5000 °K) for a total of 3,6 W. Easily replaceable. Series L1224.

5 MAGNETIC SUPPORT
Integrated in the handgrip, allows the adhesion of the lamp to any surface. This simple and practical device is useful when there are no holds for the hook of the lamp.

6 PROTECTED SWITCH
Incorporated inside the handle grip, it is protected from accidental shocks and against entry of dust, dirt and liquids.

7 HANDGRIP
In anti-skidding bicomponent, it allows a rapid and safe grip of the lamp.

8 PROTECTION FUSE
2 A, electrically protects the lamp from eventual short circuits. In the fluorescent lamp version is user replaceable.

9 PROTECTION DEGREE
IP 65.

Portable lamp Series F230 - F12 - F24 supplied with fluorescent bulb of: 12 V DC - 24 V DC - 230 V AC

Technical characteristics:

- Swivelling hook
- Magnetic support
- Transparent replaceable protection cover
- Fluorescent light bulb 11W
- Protection degree IP65
- Anti-skidding grip
- Protected switch

EARTHING CABLE REEL

Presentation

The cable reel easily meets the need to ground the tanks containing flammable liquids during the operations of transfer in order to avoid the accumulation of dangerous electrostatic charges.

The assigned operator, before performing the transfer of the fluids, must connect the clamp on the end of the cable to the proper connecting plate obligatorily foreseen on all portable tanks (fig. 1).

The cable reel can be installed on the mobile tank and the pliers connected to the appropriate ground plate (fig. 2).

Atex directive

The cable reel Series 350 is marked according to Atex directive, category 3 (zone 2).

The anti-deflagration pliers, standard on some models, can be placed instead in a potentially explosive area (zone 1) as indicated in the relative marking.

APPLICATION FIELDS

Deposits and refineries, aviation, tank trucks, naval

HOSE REEL Air-Water 20 bar 40 °C

Technical characteristics

1 SPRING

Rewinding spring totally protected from the external environment. The spring is subjected to a durability test of 20000 cycles (each cycle corresponds to the complete unwinding and rewinding of the hose thus simulating an average life of over 10 years. Possibility to intervene to adjust the spring force increasing or decreasing the preload.

2 REWINDING CLUTCH

Optional, devoid of complex and potentially wearing kinematic motions, allows the rewinding of the drum at a safe speed.

3 STOPPING RACK

It has an increased width and reinforcement ribs ensuring greater durability and sturdiness.

4 PAWL

Of increased thickness with reinforcing ribs ensuring high stress resistance and durability.

5 STRUCTURE

Strong and compact made of highly resistant shockproof material mechanical, designed to withstand over time.

6 HOSE GUIDE WITH ROLLERS

Sturdy and resistant with reinforced steel interior. Wide width which allows to guide properly the hose for correct rewind. Equipped with 4 rollers, 2 arranged horizontally (above and below) and 2 arranged vertically (left and right) that reduce hose wear.

7 FITTINGS AND CENTRAL PIN

Built in suitable material to withstand harsh products (Delrin®) and with passages dimensioned so as to avoid flow resistance.

8 ENTRY ARTICULATION

With internal passage properly sized to the used pipes. The 90° fitting can be oriented in eight different positions, 45° equitably spaced to facilitate the connection of the inlet hose (supplied).

9 HOSE

Polyurethane hose with hose stop pad and outlet articulation that ease the use of the pneumatic equipment (inflating guns, screwers, etc.) to which it is connected. Two metal coils positioned at either end of the hose are a safe reinforcement to its structure.

10 SIDE CLUTCH

The bracket is equipped with a special clutch that controls the rotational speed on the right and on the left of the hose reel.

11 ADJUSTABLE BRACKET

Adjustable up to 90° per side, of a sturdy structure with loop fixing holes that facilitate wall mounting.

12 BAYONET BRACKET

The bracket with bayonet type quick coupling is available on request and it allows an easier movement of the hose reel in the various workstations.

General sales conditions

For foreign markets

The following general sales conditions regulate the sale of goods and services by the company ECODORA S.r.l. for customers residing outside the territory of the Italian State.

Art. 1 GOODS DELIVERY TERMS

The goods are delivered ex works ECODORA S.r.l..

The subsequent transport/shipment must occur by, in the name and at the expense of the purchasing customer, even by means of carrier designated by the same. All risks arising from loading, subsequent custody and transport are borne entirely by the purchasing customer.

Art. 2 MINIMUM ORDERS

Each order cannot be for less than €. 1,500.00, net of taxes, discounts and rebates. If, at the option of ECODORA S.r.l., orders for lower amounts are accepted, an extra charge of €. 155.00 shall be applied for order management administrative expenses.

Art. 3 ACCESSORIES

All the accessories given in the price list (rubber protection, clutch, swivelling bracket) are supplied exclusively for fitting to or combining with the items ECODORA S.r.l. produces.

Art. 4 COMPLAINTS

Any defects immediately noticed after a brief inspection of the goods (damage, shortages or different product from that ordered) must be notified in writing to our company within 8 (eight) days of receipt the goods.

Any defects in the product noticeable only during its use must be notified in writing to ECODORA S.r.l. within 8 (eight) days of being detected.

Any returns of goods must be authorized in advance by ECODORA S.r.l. and freight charges are at the customer's expenses.

Art. 5 DELIVERY TIMES/TERMS

Delivery times and dates are only approximate and are subject to change.

Any delays in delivery do not entitle the customer to cancel the order or claim compensation for damages caused by delay of delivery.

Delivery times for urgent orders must be agreed directly by ECODORA S.r.l..

ECODORA S.r.l. has the right not to carry out the order and/or totally or partially carry it out, without this giving rise to reimbursement or claims for compensation for damage.

Art. 6 PACKS AND PACKAGING

Packaging costs are included in the price, except for special packing, which shall be charged at cost.

Art. 7 PRICES

The current Price list cancels and replaces the previous price list. In the event of changes to our price list and/or individual items, the goods shall be forwarded at the price in force on the day of delivery. The price list and/or the prices of individual items can be changed even without notice, according to the changes in market conditions or technical innovations/modifications made to the product. The prices are understood to be ex works ECODORA S.r.l..

Art. 8 PAYMENTS

Payments must be made exclusively to ECODORA S.r.l. at the agreed conditions. Under no circumstances will deductions or roundings be accepted.

In case of late payment with respect to the agreed conditions, ECODORA S.r.l. reserves the right to charge interest at the current rate, effective from the day after that agreed for payment, plus any additional expenses. Discounts conditional on the payment term and already credited shall be recharged.

Art. 9 WARRANTY

ECODORA S.r.l. provides each product with the communication of particular instructions for the installation, use and maintenance requirements and the need to carry out possible checks on the product. Incorrect installation, use or maintenance of the product shall void the warranty. The articles must be returned free to our Factory for checking and acceptance. All the technical information and data mentioned in the catalogue and in the price-list in force are not binding and can be changed without prior notice for the purpose of improving the quality of the products.

All products in the present price list are manufactured by ECODORA S.r.l. and are guaranteed for a period of 1 (one) year.

Art. 10 RESPONSIBILITY

ECODORA S.r.l. is exempt from any responsibility and liability for accidents that may occur to persons and property, as a result of or during the use of the equipment, due to or depending on the same whenever the products have been damaged during transport, tampered with or modified, or improperly used, or stored, installed, protected and preserved without complying with the instructions of ECODORA S.r.l. as given in the installation, use and maintenance instruction manuals for each product.

ECODORA S.r.l. is liable for the value for the supplied product and cannot be held responsible in any way for other possible costs or additional costs that the customer may bear.

Art. 11 COMPETENT LAW COURT

Any disputes shall be settled by the Law Court of Vicenza, Italy.

The Intellectual Property rights to the trademark ECODORA are exclusive and all rights to its use and reproduction are reserved.

The ECODORA trademark is a protected trademark at an international level. No part of the ECODORA trademark and its logo may be utilized, copied and/or used in any form, time and space, even by means of improper alterations.

The Intellectual Property rights on the images published in this catalogue are owned exclusively by ECODORA S.r.l. and any unauthorized reproduction is prohibited.

Any use in general of the assets protected by the Intellectual Property rights of the trademark ECODORA is prohibited and is subject to the prior written permission of ECODORA S.r.l..

The manufacturer declines any responsibility for possible inaccuracies contained in this catalogue, due to printing or transcription errors.

The manufacturer reserves the right to make any changes or improvements of a functional, technical or aesthetic nature without prior notice.

The publication and the reprint of this price list is forbidden.
